7.	Support Staff	1

Areas of Involvement

Main Strength of FAMED lies in the mix of professionals, specialized and highly focused operation. Increasing customer's awareness is the strength where it excels over its competitors. Our strength lies in our ability to blend current management practice and IT expertise into cost-effective Computer Aided Management Solutions, Products and Services. Famed understands the need for skill transfer to client personnel. Our offers cover the following major areas:

A. SOFTWARE DEVELOPMENT

Beside the hardware and network solution; with design and development expertise in diverse platforms, best-of-breed tools and techniques, combined with industry best practices, FAMED offers scalable end-to-end application development and management solutions from requirement analysis to deployment and rollout. We are developing software, related to financial institutions, mobility solutions, garments- production

management, commercial jobs, buying, accounting software for trading, manufacturing house and group of companies. FAMED's services span the following application lifecycle stages:

➤ **APPLICATION DEVELOPMENT:**

Providing end-to-end development from requirement analysis to deployment and rollout. The application may be bespoke or a COTS based product.

➤ **APPLICATION MAINTENANCE:**

Changing or enhancing software to meet changing or increasing business demands in the post-rollout phase of an application

➤ **APPLICATION SUPPORT:**

Providing first, second, third line support and on-call support. On-call support further includes Gold (24x7), Silver and Bronze support.

➤ **APPLICATION INTEGRATION/MIGRATION/TRANSFORMATION:**

Replacing, migrating and integrating legacy or bespoke systems with COTS products

➤ **APPLICATION MANAGEMENT:**

The application management layer cuts across all software engineering activities listed above. FAMED takes complete ownership of the outsourced suite of applications as per the agreed scope and manages the support.

➤

This typically involves transition management, project management, proactive risk and scope change management, quality management, SLA management etc.

B. OUTSOURCHING

➤ **HIRING A DEDICATED TEAM**

Any customer can hire a team of programmers as their requirement from FAMED pool of resources. The general rate of the development as follow:

Team	Cost
C#.Net/ Asp.net/PHP/Nodejs/Python/ Java Development	USD 35/Hour
Oracle/MySQL/MSSQL/Mongo DB/PostgreSQL Database Development	USD 40/Hour
Linux Centos, Ubuntu, Windows Server, Web Server Tomcat, Apache, Nginx, IIS Development	USD 40/Hour
Graph Design and Static Web Design	USD 30/Hour
Business Analysis, System Analysis	USD 35/Hour
Implementation Support	USD 30/ Hour
Other works	USD 30/ Hour

Payment mode may be monthly or quarterly based on the volume of the project. For any enquiry, you are requested to mail at info@famedbd.com.

➤ **FIXED PRICED PROJECT**

For any outsourcing project (direct order from Client or from any partner), FAMED goes for detail business analysis and send an initial understanding (system study report/ business analysis report) document for client's verification. After getting confirmation from client, FAMED goes for costing based on Total man-hour needed for the whole project (if needed including implementation and after deployment support). FAMED guarantees total satisfaction from client even if the clients' requirements are modified and amended during the analysis phase and finally offers up to 50 man-hour (for software and dynamic web solution development) customization opportunity even after the delivery of the project. This Software and web development project model always ensure reasonable cost, on-time delivery and also perfect after sales service support as agreed in the documents. Generally, payment terms are 50% in advance (or may be after approval of the first design and initial layout/ prototype delivery) and rest 50% after successful delivery and implementation of the project. For long term project, it may be mutually negotiated by both the parties.

C. SOLUTION INTEGRATION

Growth in the Solution Integration (SI) services market is fueled by the need for seamless business processes across an organization's complete value chain of customers, partners, suppliers, and employees. FAMEDS's SI services enable clients to identify, develop, and implement the best-fit solutions which are equipped to meet their changing business requirements. FAMED provides total project management, right from architecture design, integration, system and interface development to migration backed by world-class methodologies, well-defined solution frameworks and extensive integration experience with tier-1 service providers.

D. MANAGED SERVICES

FAMED has the expertise and experience to manage an enabling infrastructure and applications and run outsourced operations for large telecom operators smoothly. FAMED's Managed Services offerings cover the entire array of IT outsourcing services including networks, IT infrastructure, applications and business processes.

E. ICT CONSULTANCY

We do consult for the high-end technology implementing at client's site or implementation of new technology according to the client's requirement or upgrading, enhancement the existing facilities in the clients end with the new technology integrating with the existing one. ICS offers a full range of consulting services to help analyze your business requirements for effective implementation of solutions. Our consulting services cover:

- Strategy planning
- Assessment
- Procurement
- Re-engineering solutions
- Planning, audits, best practices etc.

Technical Skill & Expertise

The development team of FAMED is equipped with proper human resources specialized in different system development tasks. The key areas are;

A. SYSTEM ANALYSIS & DESIGN

System analysis and design team combines both functional and technical analysts. We believe to develop a proper system of which functional analysis is equally important

as technical analysis. Our system analysis and design team specializes in the software like Microsoft Visio, Rational Rose and Microsoft Visual Modeler.

B. SOURCE CODE REPOSITORY AND ADMINISTRATION

For source code version control and multiple programmer interaction management we use Visual Source Safe as our source code control software.

C. DATABASE MANAGEMENT

We have database expertise ranging from ISAM or flat database systems like Microsoft Access, Visual FoxPro to robust commercial database engines like Oracle and Microsoft SQL. For web-database connectivity and cross-platform data management we also have specialized experience and expertise in MySQL, PostgreSQL database server.

D. WEB DEVELOPMENT AND DESIGN

Famed provides web solutions & services to help customer reach to a wider customer base. The web is a new and different medium for communication and requires a different viewpoint and skill set to use it in the most effective way. You need web consulting to get more return on your investment in your web site.

E. MOBILE APP DEVELOPMENT

Mobile apps allow users to access valuable information and features from enterprise solutions in handheld devices such as mobile phones and tabs on the other hand gaming apps work as great source of entertainment. All applications are developed using their native platforms, so that they work fast, reliable and securely.

F. NETWORK INFRASTRUCTURE

1. Wireless Design
2. Unified Massaging
3. PABX Exchange
4. Structure Cabling
5. Connectivity Solutions

G. PROGRAMING

Our young and talented programmers have a wide range of experience in developing systems.

Our programming skill involves:

PROGRAMMING LANGUAGES:	JAVA, C#, Python
WEB PROGRAMMING	PHP, ASP .Net, Spring Boot, Laravel, React JS
DATABASE:	ORACLE, MYSQL, MSSQL, MONGODB, POSTGRESQL
WEB SERVERS:	TOMCAT, APACHE, NGINX, IIS
SCRIPTING LANGUAGES & TECHNOLOGY:	React JS, java Script, Node JS, Vue JS, Angular 2 and Angular JS
OPERATING SYSTEMS:	Microsoft Platform and Linux/Unix like centos, Ubuntu

While some of the solutions are conceptualized and designed from the ground up by FAMED, some are a result of our customer's requirements. All however are results to keep our nose to the ground and deliver what is of most value for the customer. Our solution ideas come from the constant feedback that we receive from our existing applications that are spread across many geographical locations.

The underpinning of the FAMED solutions is:

A. END TO END SOLUTIONS

A complete Business Operation and Support System that encompasses activities starting from Point of Sales to Financial Management. It obviates the need to buy expensive stand - alone systems.

B. FLEXIBLE ARCHITECTURE

Centralized/Distributed architecture to suit our client's business needs.

C. DOMAIN EXPERTISE AND PROVEN TEACHNICAL CAPABILITY

The key resources of FAMED has a proven expertise working with different Financial Institutions, Telecom & other corporate enterprises in Bangladesh & abroad and follows best-in-class practices.
